

Jayanth Varakala

+91 9573387721 | jayanth.xo@gmail.com | Hyderabad, India

PROFESSIONAL SUMMARY

Detail-oriented and motivated Electronics and Communication Engineering graduate with a strong foundation in programming and practical project development. Experienced in C++, Java, and Python for developing logical, structured, and application-oriented solutions. Demonstrates a keen interest in software development, problem solving, and technology-driven projects, with the ability to learn new concepts and adapt to changing technical requirements. Possesses hands-on exposure to Python application development and VLSI-oriented digital design through academic projects. Seeking an opportunity to apply programming knowledge, analytical thinking, and engineering fundamentals in a professional environment while continuing to grow as a technology professional.

EDUCATION

Dr KKR's Gowtham High School | Vijayawada Mar 2019

SSC | CGPA: 9.8

Sri Viswasanthi Educational Institutions | Vijayawada Mar 2021

Intermediate: MPC | Percentage: 93%

Vidya Jyothi Institute of Technology | Hyderabad May 2026

BTech: Electronics and Communications Engineering | GPA: 7.0

PROJECTS

Weather Monitoring System using Python

Engineered a reliable Python-based solution to forecast temperature and humidity using an API key.

Technologies / Tools Used: Python

Brent Kung Prefix Adder

Increased the speed of adders using a 32-bit Brent-Kung model, focusing on efficient carry computation and high-speed digital addition.

Technologies Used: VLSI

SKILLS

Programming Languages

C++

Java

Python

Core Skills

Problem Solving

Hardworking

Analytical Thinking

CERTIFICATIONS

IBM: Introduction to Data Analytics
